Tips

- The shawl works up from the top of the neck and down.
- It is worked in rows back and forth.
- Odd rows are the right side, even rows are the wrong side. When the popcorns are made on the wrong side, you might need to pull them out from the right side afterwards. They are supposed to show on the right side.
- The initial ch 4 of every row acts as tr + ch 1. All stitches that are made in the last stitch of every row, is made in initial ch 3 from the previous row.

- In the first flower part (rows 25 – 33) there are 10 flowers, in the second flower part (rows 52-60) there are 22 flowers.
